Call for Table-Top Poster Presentations

The Arizona Immunization Conference extends this invitation for you to participate as a poster presenter at the 14th Annual Arizona Immunization Conference.

This conference is a valuable opportunity to share your expertise and to interact with colleagues in a dynamic exchange of information and ideas. We are looking for pediatricians, healthcare workers, coalitions, school nurses, childcare center administrations, and vaccine-preventable disease epidemiologists to share their knowledge and experiences on a variety of vaccine-preventable disease issues. More information can be found at www.azdhs.gov/phs/immune/conf.htm

Presentation Format

Applicants are encouraged to submit proposals related to a conference theme (see below) or their organization's successful program. The posters will be displayed in the poster presentation room. Conference attendees will have the opportunity to view your poster during breaks and lunch during the 2 -day conference. Presenters may wish to provide handout materials on their poster to conference participants (est. 300). *Presenters are required to set up 30 minutes prior to the first poster session, be present for at least one poster session to respond to any questions, then remove the poster at the close of the conference.* Presenters are required to register and attend the conference. If your poster is accepted, your registration fee will be discounted to \$140.

Please focus your poster presentation on one of the following conference themes or one of your organization's successful programs:

Theme

1. Proven-effective immunizations strategies and program tools
2. Program development and administrative tools
(i.e. community collaboration, evaluation)
3. Influenza Pandemic Planning
(i.e. business continuity, personal preparedness, survey capacity)
4. Uses of ASIIS to manage patient immunizations

The Review Process

The review committee will base their evaluation of presentations on two criteria:

1. Relevance to conference themes.
2. Well-defined focus and learning objectives.
